

RESOURCES FOR BIBLE QUIZZING

1. Rulebooks for CGGC quizzing
Free download from www.cggc.org – Under Transformational Ministries, Bible Quizzing.
2. Computer program for making questions for practices.
\$9.95 from www.acmequiz.com - this is a great and cost effective resource. This is the same program we use to create all of the quizzes used in National tournaments. Plus it is a limitless supply of questions. From the Acme website you can purchase a license that allows you to download their program or have it sent to you on a CD in the mail. Be sure and select the Churches of God version of the material. (The program that you can then access also has games and other tools that you can use to study. This is a good quizzing resource, as well as coach or director resource.)
3. www.youthquiz.com Also has some interesting resources. It is the Nazarene quizzing site. They quiz over the same material and use the same memory verse list as we do. They do use various types of questions that we do NOT use, and their rules are not all the same, but they have some interesting study aids, free memory verse lists and more that can be worth checking out. (Only the computer program through ACME is tailored to CGGC rules.)
4. Scripture portions with or without a concordance can be ordered through Acme www.acmequiz.com or www.youthquiz.com
5. Memory verse lists
The memory verse list can be accessed through the ACME quiz site if you purchase a license for the program. (Make sure you have a current list, as they sometimes change from year to year.) You can also download a free list usually from Youthquiz.com resources. Or see Rachel for a copy.
6. The score sheets we use can be downloaded free from www.cggc.org
